

DIY BUBBLE WANDS

GET
ADVENTUROUS

20 MINUTES

PREPARATION
NEEDED

GETTING INTO THE ACTIVITY

Get outside and create the largest bubbles you can using DIY bubble wands.

Bubble Wands: Use kitchen utensils to create your bubble wands. You'll need utensils which have holes in. Spatulas, mashers, whisks etc. are some good examples to start with. Please don't use any with sharp edges.

Bubble Mixture: If you don't have bubble mixture then you can create your own. In a large bowl carefully mix together 50ml (1 part) washing up liquid with 300ml (6 parts) of water. Mix this together carefully as you don't want to create too many bubbles at this point. Let it rest for a few minutes.

Challenge: Using the different utensils, dip them into the bubble mixture and then blow bubbles. How big can you make a bubble? Which utensil creates the best bubble? Which utensil creates the most bubbles?

WHAT YOU'LL NEED

- Kitchen Utensils
- Washing Up Liquid
- Water
- Large Bowl

NOTES FOR PARENTS & CARERS

All activity should be supervised by an adult. Please only use utensils with no sharp edges and wash the utensils before and after. Share a picture or video with your BB group or post on social media using #BBatHOME.
