

SAVE THE TURTLES

GET INVOLVED

30 MINUTES

IN THE CUPBOARD

GETTING INTO THE ACTIVITY

A reminder of how the plastic waste we produce can end up harming the ocean creatures we love. Linked to World Oceans Day (8th June).

Create a turtle by asking a grown-up to cut off the bottom of a 2L bottle. Cut out the turtle from the template or draw your own. Use green card for the turtle base if you can, or colour it in yourself. Stick the bottle to the turtle base using sellotape. Before doing that, fill the turtle with colourful plastic waste such as food, sweets and crisps packaging.

Your plastic turtle may look good, but inside its stomach is lots of plastic waste. This happens in our oceans every day. Animals such as turtles eat plastic, harming and sometime killing them. We can stop this by using less plastic and recycling more. Think about 5 ways you could pledge to use less and recycle more. Could you reuse carrier bags and bottles for example? Write down your pledges and try and make the changes to help protect our oceans.

WHAT YOU'LL NEED

- Plastic 2L Bottle
- Scissors
- Paper / Card
- Save the Turtles Template
- Colouring Pens
- Sellotape
- Plastic Wrappers

NOTES FOR PARENTS & CARERS

All activity should be supervised by an adult. An adult should cut the drinks bottle. Share a picture of your turtle and pledges with your BB group or post on social media using #BBatHOME.
