PODCAST

▶▶ GETTING INTO THE ACTIVITY

Over 7 million people listen to podcasts each week in the UK. Record your own podcast, edit it and share it with an audience.

Podcasts continue to gain in popularity, featuring topic such as gaming, sports, current affairs, entertainment and much more.

Split into small teams of roughly 4. Discuss what theme you'd like your podcast to be on, then start planning what you'll feature on it. It might be useful to find some popular podcasts and listen to snippets to get ideas. You could review a game, have an interview, talk about things with a panel of guests and so on. Once you've planned the podcast, record it. This can be done on a mobile phone as a sound file or on a computer or other recording device. Aim for at least 5 minutes, but ideally more. Once recorded, you could leave it like that, or edit the podcast with sound clips, intro music etc to make it sound more professional.

Share your finished podcast with others, such as family and friends, or place on social media.

Virtual: Split into breakout rooms to plan and discuss the podcast. Use the record function on zoom to record the podcast.

WHAT YOU'LL NEED

- Pen & Paper
- Mobile Phone / Recording Device
- Computer

KEEPING EVERYONE SAFE

Remember to maintain social distancing as required.
