

GET INTO
THE BIBLE

10 MINUTES

READY
TO GO

AN INCREDIBLE UNIVERSE

PART OF THE SPACE THEMED PROGRAMME

▶▶ GETTING INTO THE ACTIVITY

The universe is full of amazing things. But who created it all and made it so special?

Ask the group to share any facts they know about space (number of planets, facts about the sun or anything else they've learnt at school).

Here are some facts to help:

- There are more stars in the universe than grains of sand on all the beaches on Earth. That's at least a billion trillion!
- The Earth is tiny compared to the universe - it could fit into the sun 1.3 million times. How small does that make you feel?
- We're racing through space at around 30 miles per second. Every minute we travel more than 12,000 miles.

Now ask about the story of creation. Do they know what God created on each day? Share the story of creation, particularly the creation of day and night, the stars and the moon.

How cool is it that God created billions of stars? Just like he made all the stars, he also made us and he wants us to know him and share our lives with him. Are you ready to shine like a star for God?

'He counts the stars and calls them all by name.' Psalm 147:4

WHAT YOU'LL NEED

- No Equipment

KEEPING EVERYONE SAFE

Please ensure social distance is maintained where required.
