# FIREWORKS

## ▶▶ GETTING INTO THE ACTIVITY

Transform into spectacular fireworks in this action game. Perfect for celebrating Bonfire Night (5<sup>th</sup> November).

Spread out around the meeting space, maintaining social distancing where required. On go, children can move around the room pretending to be fizzing fireworks. A leader should call out the actions below for the group to act out.

**Catherine Wheel:** Spin on the spot, with your arms stretched wide.

**Firework Explosion:** Stand still with your arms and legs really wide and shout 'Bang!'.

**Sparklers:** Stand with your hands high in the air and your fingers wiggling. Make a fizzing noise too.

**Rocket:** Crouch down low and then jump into the air as high as you can, just like a rocket launching.

**(Colour) Firework:** Call out a coloured firework, e.g. 'red firework' or 'blue firework'. Children should find something in the room of that colour and point to it. If playing virtually, children could go and collect an item of that colour and bring it back to show.

Play until all the children have learnt the actions, then play for points.

**Virtual:** Children should jog on the spot in front of their camera and then complete the action as it is called out.

## WHAT YOU'LL NEED

- No Equipment

## KEEPING EVERYONE SAFE

Maintain social distancing where required. In smaller meeting spaces or larger groups you may need to put cones out and ask children to jog on the spot, rather than run around the meeting space.
