COLOUR SPINNERS

▶▶ GETTING INTO THE ACTIVITY

Create a colourful spinner and watch as you see your design spin faster and faster, until all the colours merge together.

Print out the colour spinner templates. These will need to be cut out along with disks of the same size from thick card. This could be done by a leader beforehand to save time.

- 1) Children should colour in two of the patterns, trying to make them as colourful as possible. Once completed stick these onto either side of a cardboard disk of the same size.
- 2) Carefully pierce the two small holes in the centre of the disk. This should be done by a leader.
- 3) Cut a piece of string at roughly 40cm. Thread each end of the string through one of the holes each. Tie the ends together to create a loop of string. Make sure the disk is sat in the middle.
- 4) Hold the sting with both hands and start making circular motions until the string has wound up. Pull the string tight and then watch as the colour spinner starts to spin. Keep pulling the string tight and loosening it, as the spinner goes round and round.

Take a look at the colours as they spin around. Notice how the pattern merges into one when it's going really fast?

✓✓ WHAT YOU'LL NEED

- Colour Spinner Templates
- Thick Card
- Colouring Pens / Pencils
- Glue
- String
- Scissors

! KEEPING EVERYONE SAFE

Maintain social distancing as required. Children should ideally have their own equipment. Leaders may need to provide some assistance, where this is necessary, please keep an appropriate distance and ensure hands are cleaned before and after.
