# WHO MISSED THE ARK?

PART OF THE NOAH THEMED PROGRAMME

## ▶▶ GETTING INTO THE ACTIVITY

Noah was tasked with collecting two of each animal and placing it on the ark. However, it seems that one animal has missed the boat. Can you spot the missing animal?

This activity is designed to test and develop children's observation skills. You will need to download and screenshare the 'Who Missed the Ark' PowerPoint.

On each picture the group will see an ark full of animals. On each picture there should be two of each animal - just like God asked Noah to collect. However, in each picture there is an animal missing. So, for example the boat might be full of pairs of animals, however there is only one lion. In this case it would mean a lion was left behind. Can the group spot the missing animal in each picture?

Children should put their hand up when they spot the missing animal. Give time for as many children as possible to spot the missing animal on each picture, before asking someone to share their answer. Who can be the quickest to spot the missing animal each time?

## ✓✓ WHAT YOU'LL NEED

- 'Who Missed the Ark?' PowerPoint

## ! KEEPING EVERYONE SAFE

When using screenshare, make sure to check the items you are sharing are appropriate and don't contain sensitive / personal information.
