3 CARD MAGIC TRICK

GETTING INTO THE ACTIVITY

Learn how to perform an impressive magic trick using just three cards.

For this activity, each child will need three playing cards (which they can ruin by tearing in half) or a copy of the three playing cards on our template sheet. Alternatively, children can use three sheets of paper, but beforehand they will need to draw a large number or picture on one side of each card.

Using screenshare, share the video '3 Card Magic Trick' - <https://vimeo.com/511606936>. Make sure to tick the 'share sound' button when doing this. This is an exciting magic trick performed especially for us by magician Paul Brown. In this video, Paul will show the card trick in action and teach you how to do it as he goes along. You may wish to pause the video at certain points to ensure all the group are keeping up.

How did the group get on? Did they all manage to complete the trick?

Take it Further: Challenge members of the group to go away and try and learn a new card trick before your next meeting, which they can then perform for everyone. Quick and easy card tricks to learn can be found on YouTube.
