

# PAPER AEROPLANES

GET CREATIVE

10 MINUTES

IN THE CUPBOARD

## GETTING INTO THE ACTIVITY

Create and design a paper aeroplane and then see how far you can make it fly.

For this activity you'll need a sheet of A4 paper or card. If you have coloured paper/card, then this would work best, but if not then you can decorate the plane afterwards

Follow the video tutorial on how to create your paper aeroplane. The video can be found at <https://vimeo.com/508453525>. Pause the video after each fold, to allow you to complete the step, before moving on to the next fold.

Once complete decorate the plane using pens and craft materials. You could simply add a pattern or alternatively design the plane as your own branded airline. Finally you'll need to test out your plane. How far can you make it fly? Challenge a family member to make a plane too and see who can fly it the furthest.

Take a photo or video of your paper aeroplane and send it to your BB group or post on social media using #BBatHOME.

## WHAT YOU'LL NEED

- A4 Card / Paper
- Paper Aeroplane Video

## NOTES FOR PARENTS & CARERS

All activity should be supervised by an adult. Share a photo of your paper aeroplane with your BB group or post on social media using #BBatHOME. An adult should initiate any contact with the BB group and/or share on social media.
