PREPARATION NEEDED

# SCUBA DIVING

## GETTING INTO THE ACTIVITY

Go on an underwater adventure as you experience what it's like to scuba dive amongst some of the ocean's most impressive creatures.

Thanks to technology, we can now experience a scuba dive from the eyes of the diver. Play one or more of the below videos and use the 360° technology to take a full look around the ocean, trying to spot different sea creatures and fish as they swim around you. Ask the group which of the below animals they would like to see and then play that video. Make sure to tick the 'share sound' button as you share your screen.

- Sealions & Turtles (including narration & facts) - <https://sanctuaries.noaa.gov/vr>
- Sharks - <https://youtu.be/VNChunf5RKQ>
- Hammerhead Shark - [https://youtu.be/rG4jSz\\_2HDY](https://youtu.be/rG4jSz_2HDY)

During the videos you could share facts about some of the animals or alternatively you could ask what the children know about the animals they are seeing. After watching some of the videos, ask the group what animals they would like to see if they could go on a real scuba diving adventure.

## WHAT YOU'LL NEED

- 360° Scuba Diving Videos

## KEEPING EVERYONE SAFE

When using screenshare, make sure to check the screen you are sharing is appropriate and doesn't contain sensitive / personal information.
