HELLO AROUND THE WORLD

PART OF THE AROUND THE WORLD THEMED PROGRAMME

GETTING INTO THE ACTIVITY

Hello, Bonjour, Ciao, Guten Tag! Take a trip around the world as we learn how to say hello in different languages.

Download the 'Hello Around the World' PowerPoint and display this in your meeting space or virtual session. You will need to ensure you are sharing sound too. As you go through the slides click on the speaker icon. This will play a recording of the word on the screen. Play it a few times so children can hear it and have a go at saying it together. The screen then gives four potential answers for which country that greeting is used. Children can indicate what they believe the correct answer is by:

Face-to-Face: Lay out a line of red, yellow, green and blue cones (or similar) across the room. Children should spread out along the line (to allow for social distancing). For each 'hello' children should then stand on the coloured line of cones that they believe to be the correct country.

Virtual: Children should be asked to have red, yellow, green and blue household items with them (toys, socks, lego etc) to hold up for what they think is the correct country.

Afterwards recap some of the different ways of saying hello by seeing who can remember how to say hello in the different languages.

WHAT YOU'LL NEED

- Hello Around the World PowerPoint
- Red, Yellow, Green & Blue Cones (Face-to-face) or Objects (Virtual)

KEEPING EVERYONE SAFE

Maintain social distancing as required.
