# SECRET DANCER

GET CREATIVE

15 MINUTES

READY TO GO

## AIM

An opportunity to show off your best dance moves, from the floss to the dab, the robot to the hype. Will the detective find the secret dancer in time, or will they escape?

## WHAT YOU'LL NEED

> Music (Optional)

# GET CREATIVE: SECRET DANCER

THEME: SINGING, ACTING & DANCING

## LEADER PREPARATION

This activity requires very little preparation. If you wish to use music then a leader will need to sort this out, alongside speakers, beforehand.

## GETTING INTO THE ACTIVITY

- 1 Ask the group to stand in a large circle
- 2 One child should become the detective. They should leave the room or stand in a corner.
- 3 One child should now be nominated to be the 'secret dancer'. Their job is to dance, whilst the rest of the group copy the movements. Get the secret dancer to start dancing, with everyone else copying the moves. If you are using music, make sure to press play.
- 4 Invite the detective to come back and stand in the centre of the circle. Their job is to look around the circle and try to identify who the secret dancer is. They can do this by trying to work out who is starting the new dance move every time it changes. The rest of the group need to be careful not to be staring at the secret dancer (otherwise it becomes obvious who it is) and quick to change dance moves.
- 5 The secret dancer should aim to change their dance move every 10-15 seconds.
- 6 The detective is allowed up to three guesses to try and find the secret dancer. If not caught in three guesses, the secret dancer has escaped and won their round.
- 7 Continue playing, with a new detective and secret dancer each round.

This game is all about getting creative with your dance moves. Use the game to let the group teach each other dance moves they know, including ones picked up from video games, YouTube and the school playground.

## IDEAS TO TAKE THIS FURTHER...

Increase the difficulty by having two detectives in the centre of the circle. You could also force the secret dancer to change moves every 10 seconds, increasing the chance they might get spotted by the detective.

## KEEPING EVERYONE SAFE

Please ensure everyone has enough space to do their dancing without hitting any other people or objects.
