GETTING INTO THE ACTIVITY

This activity forms part of our consultation with children and young people about their experiences and opinions of their time in The Boys' Brigade.

-  Print the Shaping the Adventure Ranking Cards and cut these into the individual cards. If working with a larger group, consider printing multiple copies so young people can work in groups of 3 or 4.
- These ranking cards all describe experiences and opportunities most Company & Seniors should experience within their time in the BB. Talk the group through each of the cards and get them to talk about different activities you may have done recently that match these cards.
- Now challenge young people to put these cards into an order of which are the most important to them. The most important experiences/opportunities should go at the top of the list and the least important at the bottom. Explain that their final rankings will be sent to BBHQ who want to hear their opinions, to help ensure The Boys' Brigade is focused on things that are important to them.
- Allow young people a few minutes to complete this activity, encouraging them to talk about their views and opinions as they go.
- If working in multiple groups let each group share their final rankings. Were there any similarities and differences between the groups?
- Thank the young people for their contributions and explain that their results will be shared with BBHQ. Leaders may wish to keep a copy of the rankings, to help with your programme planning going forwards.

My Programme Priorities: The Shaping the Adventure programme comes as two activities. Please can we encourage you to take on the 'My Programme Priorities' activity too.

Share Your Results: Make sure to share your results with us at BBHQ, so we can add your group's views to other children and young people from across the UK & Rol. Submit your results at <https://boys-brigade.org.uk/shaping-the-adventure>
